

SPIKE_SECRET_ALPHA

ing worker-free on the main thread,
me with connect-src 'none'. The PDF
bridge; the frame fetches nothing.

embedded raster (synthesized RGB PNG)

Page 2 — more selectable text

The viewer renders page 1 for the spike, but the document has multiple pages so `pageCount > 1` is exercised. Standard Helvetica is used throughout so `useSystemFonts:true` renders without fetching `standardFontDataUrl`.
